

# COMPREHENSIVE ADVANCED PALLIATIVE CARE EDUCATION

THURSDAY—SEPTEMBER, 11TH 2025— JANUARY 26, 2026

6:00PM—8:00PM

The Comprehensive Advanced Palliative Care Education (CAPCE) Program combines the “art” and “science” of Hospice Palliative Care (HPC) for nurses (RN, RPN, & NP). The program embeds best practice standards and aligns with the Model to Guide Hospice Palliative Care. CAPCE focuses on the development and role of the nurse as a HPC resource for the inter-disciplinary team in long-term care homes, agencies, hospitals and communities.

The components of the program include: self- directed reading and reflection, e-learning modules, in-person sessions (case based learning), peer to peer exchanges (learning debrief), practical application assignments and individual or small group coaching sessions.

*CAPCE Selection Criteria: a minimum of 1 year hospice palliative care nursing experience, have access to an internet-enabled computer, have knowledge of basic computer programs, and have completed the Fundamentals Core and Enhanced Hospice Palliative Care Programs.*

## Includes Enhanced Fundamentals Curriculum

Classes are 2 hours, once a week for 20 weeks
